

Md Foysal

Passport: A06290187 | **Date of birth:** 06/09/2001 | **Place of birth:** Narayanganj, Bangladesh |

Nationality: Bangladeshi | **Gender:** Male | **Phone number:** (+49) 15222765750 (Mobile) |

Email address: mdfoysal.cysec@gmail.com | **Website:** <https://github.com/mdfoysalcysec> |

LinkedIn: <https://www.linkedin.com/in/mdfoysalcysec/> |

Whatsapp Messenger: +4915222765750 |

Address: Wittenberger Str. 44C / Etage 3 Re bei Bhuiyan, 12689, Berlin, Germany (Home)

ABOUT ME

I am a Master of Science (M.Sc.) student in Cyber Security at Arden University. As a student and proactive learner, I am eager to apply my skills and contribute to dynamic projects in the industry and contributing to the success of a forward-thinking organization.

WORK EXPERIENCE

 **THE EMPTY BRAIN** – GAZIPUR, BANGLADESH

Business or Sector Professional, scientific and technical activities | **Department** Software Development |

Email engineering.emptybrain@gmail.com | **Website** <https://empty-brain.github.io/>

JR. SOFTWARE ENGINEER – 01/02/2024 – 30/06/2025

- Developing, maintaining, and optimizing web applications using modern frameworks and technologies.
- Writing clean, efficient, and well-documented code following industry best practices.
- Collaborating with senior engineers, designers, and product managers to deliver high-quality software solutions.
- Debugging, troubleshooting, and resolving technical issues in a timely manner.
- Managing databases, APIs, and integration of third-party services.
- Participating in code reviews, providing constructive feedback, and ensuring adherence to coding standards.
- Assisting in deployment, testing, and performance optimization of applications.
- Researching new tools and technologies to enhance productivity and efficiency

 **AMADER JAGORON** – NARAYANGANJ, BANGLADESH

Business or Sector Other service activities | **Department** Information Technology | **Email** contact@amaderjagoron.net |

Website <https://amaderjagoron.net/>

WEB DEVELOPER – 01/10/2022 – 31/12/2023

- Designing, developing, customizing and maintaining the website.
- Managing plugins, themes, and overall site functionality.
- Customizing existing themes and creating new pages and widgets as per requirements.
- Troubleshooting technical issues and ensuring smooth performance of the platform.
- Monitoring and improving website performance (speed, SEO, caching).
- Applying security measures to protect websites from vulnerabilities.

EDUCATION AND TRAINING

01/12/2025 – CURRENT Berlin, Germany

MASTERS OF SCIENCE Arden University

Website <https://arden.ac.uk/berlin> | **Field of study** Cyber Security | **Level in EQF** EQF level 7

01/09/2019 – 30/10/2023 Dhaka, Bangladesh

BACHELOR OF SCIENCE City University

Process text data, including tokenization, stemming, and context analysis.
Deep learning architectures, specifically LSTM.
Text classification techniques to categorize news articles into relevant topics.

Apply NLP techniques to extract keywords from news articles.
Data preprocessing: Handling missing data, Text normalization, and Ensuring the data is suitable.
Utilize appropriate evaluation metrics, such as accuracy, precision, recall, and F1 score, to assess the performance of the LSTM model.

Website <https://www.cityuniversity.edu.bd/> | **Field of study** Computer Science and Engineering | **Final grade** 3.35 out of 4.00 |

Thesis Bangla News Assistant Categorized Bangla News And Identified The Keywords Using NLP

01/07/2017 – 17/07/2019 Narayanganj, Bangladesh
HIGHER SECONDARY SCHOOL Government Tolaram College

Website <https://tolaramcollege.edu.bd/> | **Final grade** 4.08 out of 5.00

● **LANGUAGE SKILLS**

Mother tongue(s): **BENGALI**
Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	B2	B2	B2	B2	B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

● **SKILLS**

C | Python | Java | HTML | CSS | PHP | troubleshoot | WordPress | Bootstrap | MySQL | Git | Machine Learning | Deep Learning | Cyber Security | Natural Language Processing | Microsoft Office | Linux | Cryptography AES, DES, RSA | Email Forensics | Memory Analysis with Autopsy | implement front-end website design | levels of software testing | Manual testing | Automation testing | Selenium (Using Python script) | WebDriverIO

● **PROJECTS**

PRESCRIPTION CONVERTER – USING MACHINE LEARNING

Implemented a cutting-edge solution utilizing the YOLO model to convert handwritten text images into textual data. This project involved training the YOLO model on a dataset of handwritten samples to recognize and extract text information. This project showcased proficiency in computer vision, deep learning, and image processing, contributing to advancements in optical character recognition (OCR) techniques.

HEART STROKE PREDICTION USING NON-DEEP LEARNING ALGORITHM

Developed a comprehensive system for heart stroke prediction employing non-deep learning algorithms, such as decision trees, support vector machines, and logistic regression to analyze a diverse set of medical data and identify potential risk factors for heart strokes. Successfully implemented a predictive model, contributing to early detection and prevention of heart strokes. This project underscores proficiency in machine learning, data analysis, and healthcare analytics, demonstrating a commitment to leveraging technology for proactive health solutions.

SYSTEM ACCESSIBLE CHIP

Developed a system access chip using the Arduino Pro Micro to automate specific administrative tasks on Windows systems. The device interacts seamlessly with the Windows environment, performing operations such as system firewall configuration and software installation and take the full access of the system remotely.

BANGLA NEWS ASSISTANT CATEGORIZED BANGLA NEWS AND IDENTIFY KEYWORDS USING NLP

Developed machine learning-based system using Nave Bayes and support vector machines where the vectorization, discrete feature and linear kernel were used as well as for non-deep learning based model and LSTM, Bidirectional LSTM, where the Embedding layer, Spatial Dropout layer, LSTM layer, and dense layer, maxpooling layer, and conv1d layer were used to build the classification model. Bidirectional LSTM had the highest accuracy of 99.3 percent among all the models. All this model can categorize the seven types of news. We built an extensive system that can categorize Bengali textual input data and provide prediction performance.on...

● RECOMMENDATIONS

Sharmin Akter Lecturer at City University

Md. Foysal possesses exceptional academic intelligence and is highly driven. In my opinion, he is a very qualified candidate for this higher education opportunity.

Email sharmin.cse051@gmail.com | **Phone** (+880) 1744960557

Link <https://drive.google.com/file/d/1-f3O5vLk-GSv2RRKH0Pk9fUyepVoLGv0/view?usp=sharing>

Md Ataullah Bhuiyan Senior Lecturer and Coordinator

Md. Foysal is motivated and academically gifted. Therefore, he is a considerably deserving candidate for this advanced education, in my opinion.

Email abab_bn@yahoo.com | **Phone** (+880) 1843906686

Link <https://drive.google.com/file/d/1O1bgvaioZRHrgJuczvO3Kqkc0arVL7v2/view?usp=sharing>

● HOBBIES AND INTERESTS

Traveling

Traveling new places to explore new things just refresh my mind. And I love to do that.

Learning New Things

In this cutting-edge-technology I just eager to learn new terms and use those technology. I believe that master of one is better than jack of all. So, now I am focusing on path and I will achieve that anyhow.

● VOLUNTEERING

01/07/2023 – CURRENT Dhaka, Bangladesh

Mentor at Cyber Security Forum of City University

Serving as a mentor at the Cyber Security Forum of City University, I contribute to fostering the next generation of cybersecurity professionals. Guiding students in understanding complex cybersecurity concepts and value of the data in this present world. Engaging in knowledge-sharing sessions, workshops, and providing mentorship, I actively support students in honing their skills. This role demonstrates my commitment to promoting cybersecurity and the utilization of information from the data and nurturing talent within the academic community.
